

MICHELLE THOMPSON

Resource Specialist

About Me:

I have a Bachelors of Science in Elementary Education, with a middle school math endorsement, from Western Illinois University. I previously taught at St. John Berchmans School in Chicago and began at STV in 2022. I am working as a middle school math and whole school resource teacher. I believe that all students can learn. My goal is to meet all students' learning needs to help them meet their maximum learning potential. I try to differentiate learning so that each student's unique skills are emphasized. I strive to create a warm, loving classroom environment that encourages all students to flourish while they learn, grow, share and believe.

I am originally from Bloomington, Illinois and now live in Palatine with my husband and two children. Oliver is in 3rd grade and Claire is in Kindergarten here at St. Thomas of Villanova.

Religion:

I love having the opportunity to share my Catholic faith with my students and hopefully help them deepen their own unique relationship with Jesus. I continuously strive to lead by example and to live out the fruits of the Holy Spirit - *love, joy, peace, patience, kindness, generosity, faithfulness, gentleness and self control* - each day as a member of our classroom, school and parish community.

About St. Thomas of Villanova School:

St. Thomas of Villanova School strives for academic excellence and provides all children the opportunity to grow academically, emotionally and spiritually in a safe, Catholic centered environment. There is a strong sense of community and it is such a privilege to be a part of the hardworking and dedicated staff at St. Thomas.
